# Apollo Homecare Systems Integration

**Apollo Homecare — a unit of Apollo Hospitals**

BUILD · OPERATE · ENTERPRISE · INTEGRATION

## The challenge

Apollo Homecare's marketing and information systems were disparate — prospecting, fulfilment and final delivery lived in different silos, throttling expansion plans across India.

## What we did

DWI proposed and delivered the solution architecture integrating every stage from prospecting to fulfilment and final delivery, including cloud-telephony integrations and patient-flow integration with their cloud-based HIS, DocEngage.

## The outcome

The architected system enabled smooth expansion of operations across India through six local hubs, and has now been running successfully for over six years.
