India's First Vitiligo Registry + Truederm

IADVL — Telangana State branch

BUILD · MOBILE APP · REGISTRY · PRIVACY BY DESIGN

The challenge

Dermatologists needed to share vitiligo data for research without compromising patient privacy — and patients needed a way to distinguish certified dermatologists from non-accredited service providers.

What we did

We built India's first Vitiligo Registry as a mobile application for IADVL Telangana State members — research-perspective data sharing with patient data protection built in.

Alongside it, Truederm lets patients search a genuine list of TS-IADVL member dermatologists by location or name across Telangana — safe hands, verified.

The outcome

A first-of-its-kind research asset for Indian dermatology, paired with a public trust layer connecting patients to certified specialists.

Have a similar challenge? DWI.agency (a DIAS Works company) takes ideas to sale across brand, web, mobile, enterprise platforms, digital marketing and launches — now accelerated with AI. Brief us at www.dwi.agency/start-project.html or write to vinod@dias.works.
